Experienced web developer proficient in Angular, responsible for designing, developing, and maintaining web applications. Skilled in enhancing user interfaces and implementing new features. Known for translating client requirements into effective solutions. Passionate about innovative technologies. Aspire to thrive in a team-oriented, dynamic, startup-style setting.

## Work Experience

---

### Associate Software Engineer | Apsis Solutions, Apr 2022 – Nov 2023

- Built Web Applications from the ground up using Angular.
- Responsible for designing, developing, and maintaining web applications using Angular framework.
- Gained expertise in understanding and managing the architecture of web applications.
- Enhanced and updated web applications with new features and improved code structure and debugging.
- Translated client requirements into functional solutions, ensuring their needs are met.
- Explored innovative technology, including 3D web development.
- Created seamless user interfaces using tools like Angular Material, Syncfusion, SCSS, Tailwind CSS, Bootstrap, and Prime-NG.

### Frontend Development Intern | Fladdra, Jan 2022 – Mar 2022

- I learned JavaScript, TypeScript, and Angular Development.
- Contributed to enterprise-level projects.

## Projects

---

### Ticketing App

- Web application development with Angular and Go lang.
- Responsive web design for desktop and tablet devices.
- Creating routes
- Implemented user access control
- Communicating with the back-end developer for API integration
- Defining Components and Directive
- Adding interceptor and loader
- Technologies Used: Angular, Angular Material, Bootstrap, REST APIs, Syncfusion and Sweetalert2

### CMS Website <http://ruralinkbroadband.com/>

- Interaction web ui development with python backend.
- Responsive web design for desktop, tablet, and mobile devices

- Creating Routes
- Writing Services for various common functionalities like HTTP requests, Error Handling, etc.
- Adding interceptor and loader
- Defining Modules and Components.
- Added SSR feature
- Implementing lazy loading modules and API integration
- integrated Recaptcha2 ,Google Analytics and made an SEO-friendly website
- Refactoring the frontend code Technologies Used: Angular, Angular Material, Bootstrap, Prime-NG, SCSS, REST APIs

### 3D Product Configurator <https://ezzclothing.com/?token=2&type=shirt>

- A web application for 3D and 2D product configurator
- Responsive web design for mobile devices
- Creating Routes
- Writing Services for various common functionalities like HTTP requests, Error Handling, etc.
- Defining Modules and Components
- Using query parameters
- dynamically parse 3D models and show customization features
- changing WebGL renderer properties creating and adding lights, camera, models in 3d scene
- Mapping of texture on Meshes
- Preparing 2D canvas for textures
- Refactoring the frontend code
- Technologies Used: Angular, Angular Material, Bootstrap, Prime-NG, SCSS, Angular THREE

## Education

---

**Bachelor of Science in Computer Science** | August 2022 | Savitribai Phule Pune University  
**HSC** | 2019 | AKI's Poona College  
**SSC** | 2017 | KBP Vidhyaniketan

## Skills

- 
- |                   |                 |
|-------------------|-----------------|
| • Angular         | • Git           |
| • React.js        | • Bootstrap     |
| • Javascript      | • Tailwind CSS  |
| • Typescript      | • Three.js      |
| • HTML and CSS    | • Angular THREE |
| • HTML5           | • Fabric.js     |
| • Problem Solving |                 |
